---

## CAREER OBJECTIVE

Interested in a position where I can exercise my communication skills by collaborating with both the tech and business sides of a company, innovating new technical solutions to improve business efficiencies.

## TECHNICAL SKILLS AND QUALITIES

- Languages: Java, JavaScript, SQL, VBA, PHP, HTML
- Proficient in Microsoft Office, SharePoint, and Visio
- Completed Project Life-Cycle/Software Development Life-Cycle Trainings at Tyson Foods
- Familiarity with Google/Adobe Analytics
- Experience with Power BI, Tableau, and other visualization tools
- Results-oriented problem solver

## PROFESSIONAL EXPERIENCE

### **FLORIDA CLERKS OF COURT OPERATIONS CORPORATION (CCOC)**

IT/BUSINESS INTERN | TALLAHASSEE, FL | AUG 2016 – JAN 2018

- Constructed Excel Macros in VBA extracting data from incoming clerk reports and aggregating data into easy-to-read spreadsheets for management to analyze
- Managed SQL database using *phpmyadmin* that maintains the office inventory, while providing updates of inventory needs to management
- Collaborated with budget managers in translating data needs into organized solutions, leading to quicker data-oriented decision making
- Prepared Excel documents and presentations, recording court budgets for management to present to county clerks

### **TYSON FOODS**

IT BUSINESS RELATIONSHIP MANAGEMENT INTERN | SPRINGDALE, AR | MAY 2017 – JUL 2017

- Analyzed training data from thousands of plant maintenance employees as a proof of concept to predict employee characteristics that lead to greater turnover or retention
- Collaborated with internal stakeholders, IT teams, and business relationship managers in translating business needs into technical solutions to generate a greater return on investment
- Constructed a Visio workflow tracking the complete investigation phase process of a service request and the documentation required when initiating new internal projects
- Enhanced the Business Relationship Management team's internal SharePoint site and added Power BI visualizations reflecting team progress and project tracking
- Co-presented a solution to management on how "Internet of Things" can improve plant operation efficiencies

### **TOTAL PROFESSIONAL ASSOCIATION MANAGEMENT**

ASSISTANT OFFICE MANAGER | TALLAHASSEE, FL | NOV 2013 – APR 2016

- Generated hundreds of leads by researching associations with low revenue in need of new management and organized data in Excel spreadsheets for management to analyze
- Experience in Front-end Web design from contributing to the development of over ten websites for managed associations
- Attended Homeowner Association board meetings and implemented solutions to improve property quality by reducing pollution, increasing neighborhood awareness, and improving homeowner relationships with management
- Trained employees on company protocols, customer service skills, and property management

## EDUCATION

### **FLORIDA STATE UNIVERSITY, TALLAHASSEE, FL**

BACHELOR OF SCIENCE IN INFORMATION COMMUNICATION & TECHNOLOGY, AUGUST 2018
